

ASHTON HOLGATE

Front-End Web Developer

ashtonholgate.com - ashton.holgate@gmail.com - 07714 619 467

- PROFILE -

Enthusiastic and ambitious young graduate, with a passion for the web and a love of programming, who is eager to begin a fulfilling career in web development. An inquisitive and analytical person, with an eye for detail, who can work to achieve individually set, and group, goals. An articulate and confident communicator, who is quick to learn and understand new and complex systems, with an insatiable energy to produce outstanding results. Hungry for success; ready to work hard and learn faster.

- EDUCATION -

Treehouse Front-End Development Track - 2017

Languages

- **HTML5** - Strong Competency
- **CSS3** - Strong Competency
- **Javascript** - Working Knowledge

Education Summary

Course focused on developing core front-end competencies. Completed program with a solid understanding HTML5, CSS, and a working knowledge of Javascript with the ability to continue further learning. I intend to continue developing knowledge of said technologies and begin learning React.js in future.

Essex University - BA(Hons) 2:1 Philosophy and Politics - 2010-2013

Transferable Skills

- **Creating** detailed critical analysis so as to generate effective solutions.
- **Communicating** intricate ideas in concise and easily understood ways.
- **Producing** articulate and professional documents within tight deadlines.

Education Summary

Philosophical education focused on communicating clearly, and persuasively, to present ideas convincingly through well-structured, systematic, arguments. Trained to have an eye for detail when problem solving and analysing new problems. Studied classical Greek philosophy, 17th century enlightenment ideology, and modern discourse on ethics, politics, and human rights. Organised presentation groups bi-weekly to identify, clarify, and expound upon key topics taught in previous weeks.

- EXPERIENCE -

Personal Projects - Ongoing

- Designed new websites and constructed them using HTML, CSS, and JavaScript for the purpose of practicing and gaining experience. Websites available to view on personal website.
- Analysed and replicated existing websites both to gain experience constructing others designs and to find new design inspiration.

Gemini Design - Head of IT - April 2014 - Present

- Implemented and maintained all digital systems including email, cloud storage, shared calendar, task-management software, password management, quotation system, general folder structure protocol, and template-based website.
- Designed, created, and maintained complete Sketchup 'Dynamic Component' library which included a suite of objects that could be resized, and automatically redrawn, by SketchUp. Units utilized sketchup Animate feature wherever possible.

- SKILLS & INTERESTS -

- **Photoshop** - High competency in Photoshop. Self taught for the purpose of producing digital mock-ups of websites, products, and photo manipulation for professional and personal projects. Have experience with other Adobe products.
- **Web Design** - Keen interest in the web, the fluidity in design that it allows, and the nature of good design.
- **Continual Self-Development** - Success in our modern world demands a dedication to learning and a belief that one can grow with experience. With a growth mindset I have a passion for self-development and a willingness to never stop learning.
